

DATIM Release 1.32.ai was deployed on August 16, 2022.

DATIM 1.32.ai Includes VMMC_NAE and DHI app updates

Update:

- **Voluntary Medical Male Circumcision Notifiable Adverse Event Reporting (VMMC_NAE) Change:**
 - The VMMC_NAE sync from DATIM 4 Uganda to DATIM was switched-off. All VMMC NAE reporting will now only be entered in DATIM (datim.org).
- **DHI App Update:**
 - The Digital Health Inventory (DHI) app has been updated to 1.1.2.
